September 17, 2019

Good Morning,

We have been monitoring the information coming out about Eastern Equine Encephalitis (EEE). At this time, it is prudent that we take precautionary measures to minimize potential contact with mosquitos. Our primary response is to limit the activities after dusk when mosquitos are most active. These precautions will be lifted with the first hard frost.

The following actions are being taken:

1. Athletic *practices* and all outside school activities will end by dusk.
2. Athletic competitions will be whenever possible moved to end before dusk.

I strongly encourage everyone to take appropriate precautions to limit your exposure to mosquitos.

My apologies for any inconveniences this may cause.

Please see the attached letter from Chatham Health and website link to the CDC information page.

<https://www.cdc.gov/easternequincephalitis/gen/pre.html>

If you have any questions, please do not hesitate to reach out to me, administration, or the Athletic Coordinator regarding schedule changes.

Sincerely,

Brian S. Reas  
Superintendent of Schools
